

ePNMobile

MOBILE PROCESSING SOLUTIONS

eProcessing Network offers a complete suite of mobile products and services for the on-the-go merchant, enabling them to quickly enter the mobile arena and succeed in today's competitive market. With a quick download of the **ePNMobile** app on their own smart phone or tablet, merchants can securely process any form of accepted electronic payment, including EMV, from virtually anywhere.

Benefits for your Business

NEXT-GENERATION MOBILE PROCESSING

iEMVPay, the new version of the **ePN** mobile card reader is EMV, L1 and L2 certified, includes mag-stripe functionality, and is rechargeable.

ENHANCED SECURITY

Mobile transactions are never stored on the merchant's phone - only through the PCI compliant cloud-based, **ePN** Secure Payment Gateway.

VERSATILITY

Merchants can process payments securely away from their store-front or back-office with easy-to-use consolidated reports.

EASE-OF-USE

Through the **ePN** Merchant Support Center, merchants can manage multiple devices from one centralized location. **ePNMobile** supports encrypted card readers, cash drawers, external receipt printers and barcode scanning.

COMPATIBILITY

ePNMobile has many configurable options that include downloading transactions into accounting software solutions, inventory management, and signature capture.
